WE read in the vernacular press that in congequence of complaints made by residents at Singapore with reference to the quality of coal imported from Japan, careful enquiries were instituted there, with the result that the coal was found to be so mixed with sand and stones as to be hardly fit for use anywhere. This was true, of course, only in a restricted sense. The coal imported from Imafuku, in Chikugo, alone proved faulty. Merchants who had purchased this particular variety are said to have lost heavily, but they see not to be pitied, inasmuch as the price of the coal should have warned them what to expect. The principal source of regret is that any Japanese coal should have carned a bad reputation. The public does not discriminate very closely. It has been customary, for example, to speak of the Imajuku informs us that the Company's steamer product as 'Chikuzen coal,' a title that seemed, we are told, to place it on the same level as the coals of Karatsu left Singapore for this port yesterday (23rd and Milke, With no little difficulty the Milke mineral had struggled into favour, and there is fear, says the newsinjuriously affected by the bad qualities of its Imatuku rival. SANITARY BOARD.

A meeting of the Sanitary Board was held this afternoon. Dr. Ayres, Colonial Surgeon, presided; and there were also present:-Major General Gordon, Acting Captain Superintendent of Police; Mr Cooper, Acting Surveyor General; Hon. N. G. Mitchell Innes, Acting Registrar General, Hon. Wong Shing and Dr. Ho Kai, and Mr H. McCallum, Secretary.

A letter was read from Mr Granville Sharp stating that, in deference to the Sanitary Board, he had given notice to the tenant of the soy manufactory on Island lot No. 795, to quit the premises he had occupied for over quarter of a century. He asked if the tenant would be allowed to remove his business to lot No. 70 in Yau-ma-ti, where the neighbours had no objection to the works. To this letter the Secretary of the Board replied asking Mr Sharp when and in what manner the Board had expressed an opinion with regard to the soy manufactory on his property. To this, Mr Sharp answered by Gazetie, which contained a motion passed by the Board that the complaint about the existence of a soy manufactory in the neighbourhood was a real grievance and that it ought to be considered as a manufacture of a noisome nature.

The Chairman said the manufactory referred to was at the back of the Gas Works, not far from the Mortuary. There was no special reference in the minute to any particular factory located in any Dr Hampshire, and he is to go to Paris to particular place. In Mr Sharp's lease it was set forth that he must not carry on any noisome trade or business whatever without a previous licence from a Magistrate. He proposed that a letter that if his tenant wished to carry on a soy manufactory he must apply for a licence. It would be seen that Mr Sharp took no his lesse, but only mentioned the soy manufactory.

It was agreed to write Mr Sharp as proposed by the Chairman.
